Professional Summary

Motivated cybersecurity student pursuing a Bachelor of Science in Cybersecurity with hands-on experience in network security, system administration, and incident response labs. Skilled in vulnerability assessment, digital forensics, Linux/Windows administration, security monitoring, and risk mitigation. Strong problem-solving abilities and attention to detail with a passion for analyzing threats and implementing technical solutions. Eager to apply academic knowledge and practical lab experience to entry-level remote cybersecurity roles, contribute technical expertise, and grow professionally in SOC or analyst positions.

Core Competencies

- 20+ Years IT Support & Field Service Experience
- ServiceNow Ticketing, SLA Compliance & Help Desk Support
- Remote & On-Site Technical Troubleshooting
- Customer-Focused Problem Resolution ("No Stress Zone" Approach)
- Transitioning IT Background into Cybersecurity / SOC Analyst Track

Certifications

- CompTIA A+ (Completed)
- CompTIA Network+ (Studying)
- CompTIA Security+ (Planned Spring 2026)

Technical Skills

Networking & Protocols: TCP/IP, IPv4/IPv6, DHCP, DNS, HTTP/HTTPS, FTP/SFTP, SSH, VLANs, LAN/WAN/WLAN, subnetting

Systems & Devices: Routers, switches, firewalls, access points, gateways, modems, hubs, bridges, repeaters, load balancers

Tools & Software: Wireshark, Nmap, Nessus, ServiceNow, ipconfig/ifconfig, ping, tracert/traceroute, netstat, nslookup, dig, curl, iperf, Visio, draw.io

Security & Monitoring: VPNs, ACLs, AAA, RADIUS, TACACS+, IPsec, SSL/TLS, IDS/IPS basics, firewall configuration, packet capture & analysis

Other: OSI/TCP-IP models, Cat5e/Cat6, fiber optics, network troubleshooting, risk mitigation

Education

Associate in Science, Information Systems and Technology
Utah Valley University, Orem, UT - Expected: Spring 2027 | GPA 3.34

Bachelor of Science in Cybersecurity

Utah Valley University, Orem, UT - Expected Graduation: 2030

- **Relevant Coursework:** Network Security, Digital Forensics, Systems Administration, Incident Response, Ethical Hacking, Cybersecurity Policy

Projects & Labs

Network Security Lab Projects - Academic

- Configured VLANs, routers, and firewalls in lab environment; tested network segmentation and monitoring with Wireshark.
- Conducted vulnerability assessments and digital forensics simulations on Windows and Linux systems.
- Implemented incident response protocols in simulated breach scenarios; documented findings and mitigation strategies.

Professional Experience

IT Support / Desk-Side Technician

HEMMERSBACH, LLC, Houston, TX | 2024 - Present

- Tracked and executed work orders while maintaining client SLA compliance.
- Resolved user issues remotely and provided desk-side support as needed.
- Delivered training sessions to new hires for hardware, software, and email setup.
- Maintained detailed ticketing database using ServiceNow.

Travel Consultant

Independent Travel Advisor - Bald Eagle Travels, LLC, Woods Cross, UT | 2022 - Present

- Managed client itineraries, pricing, and travel documentation.
- Maintained client records and updated travelers on travel policies and deals.

IT Consultant

Independent IT Consultant - Carlsen Design & Consulting, Woods Cross, UT | 2021 - 2024

- Provided remote and on-site technical support for clients, resolving IT issues efficiently.
- Delivered training for new users, ensuring smooth adoption of IT systems.
- Maintained ticket database, meeting SLA requirements consistently.

Freight Broker

Transportation Freight Broker - Road Dog Brokerage, Inc, Woods Cross, UT | 2021 - 2023

- Managed logistics, scheduling, and customer accounts using software tracking systems.
- Maintained communications with carriers and clients, ensuring compliance and timely deliveries.

Field Engineer / IT Support

Field Engineer - Unisys Corp, Salt Lake City, UT | 2012 - 2021

- Managed service calls, client scheduling, and data center access coordination.
- Delivered hands-on technical support, maintaining high customer satisfaction.
